Heavy duty components and loaded for safety No competitor offers these following features:

- All stainless steel fasteners and solid brass inserts
- Plastic walls double or even triple the thickness of other signs
- Magnets that are 70% to 200% stronger than any competitor (depending upon the comparison). We have more neodymium (rare earth magnetic material) by weight, in our magnets, than any competitor.
- Real rubber boots (100% EPDM rubber that stays soft in the cold)
- Built in stainless steel strap mounts (you should always have the option to strap down your signs)
- Guaranteed graphic adhesion (no peeling, no extra work, and no worries)
- High quality electrical connectors (these connectors all have proper strain reliefs and will out last the cords of our competitors). This will save you money.
- The original Easy Access drop down lighting panel allows for effortless maintenance

Additional features

- Extremely bright 1156 light bulbs (twist & Lock)
- One piece molded polyethylene construction
- 2 year breakage guarantee
